7:02pm Citizen question about plowing. A citizen is building a house off Cottle Hill road a little ways after the winter maintenance on the road ends. Lee did not think the mechanics of it would be a problem as long as the driveway is wide enough. The Board will still need to discuss the budgetary effects surrounding it. Dyar stated he has concern about setting a precedence for individuals moving into roads closed to winter plowing. Dunn stated FEMA may be willing to cover costs to add gravel on the road since they initially repaired it after a storm. Dyar suggested tabling the issue until the next meeting to have time to talk with Dunn. Technically a Special Town meeting would have to be held because the snow plow budget is already set. Dyar motioned to table until next meeting. Crockett seconded. Vote 3-0 in favor.

Ande Dube brought a first draft to the Select Board of the Town maps.

Crockett agreed this is a great idea to loan it since it is currently sitting in the basement of the town hall. The historical society will continue to discuss this and the town will look into raising money for help to defray the costs of the maintenance of the hearse. O’Connell stated at this point the historical society does have some funds but it would not hurt to be able to raise money. O’Connell stated another discussion would needed regarding the agreement with the Town, and the historical society does have insurance.

Transfer Station-cutting costs. The charge would be $66/ton which is approximately what is paid for trash. They would also give the town 2-4 wheeled carts for aluminum, glass and plastics and they would pick those up for $150/trip. The Select Board and O’Connell stated there is still discussion to have about this but there has been some dialogue started. There was further discussion about how to handle the recycling issue.
