   -Office of Policy and Management letter is put in Assessor mail slot.
-Letter from Kennebec Land Trust informing the Town they are open for public comment regarding their accreditation.

-An individual came in for the Veterans excise tax exemption and there is no methodology in Town for doing this. The Town needs to decide on a percentage and write an article to put in the warrant to be voted on at Town Meeting. Dyar will look into the logistics of this.

-The Community Center Committee would like to place a dehumidifier in the basement and tie it into the electrical panel. Dyar also discussed making the Community Center the emergency shelter for the Town, which would require obtaining a generator and installing a shower in the bathroom. There was further discussion about how to get the Community Center set up as an emergency shelter building. They will also investigate an on-demand hot water heater.

-There was a discussion about creating a more organized emergency plan so that all Select Board members know what everyone’s role is. Jackson stated it would be good to have a list of people that should be checked on in the event of an emergency. The Board discussed purchasing a generator for the Town office. Jackson suggested having a meeting with the Fire Department and Rescue to make sure there is a plan in place and everyone knows what avenues to take during an emergency and what triggers opening a shelter.
